

## ShowerGuard®

### ShowerGuard

#### Stop Corrosion Before it Starts

Bathroom glass has many enemies. Hard water, heat, humidity, soap and cleaning agents can corrode glass surfaces and dull their appearance. With ShowerGuard coated glass, you can protect your shower enclosure for years to come.

#### Product Information

Applications	Shower and tub enclosures
Manufacturing options	Annealed / Laminated
Recommended Coating Positions	Surface 2
Maximum Size	6mm (1/4") -13mm (1/2")
Edge Deletion	No
Glass type	Low Maintenance
Glass functions	Shower Glass
Fabrication options	Monolithic
Appearance	Neutral

### Clean better, looks new forever

ShowerGuard® glass provides innovation protection by permanently sealing the surface of the glass for lasting beauty with less maintenance. An invisible protective coating is fused to the surface, filling the peaks and valleys that occur naturally in glass creating a non-porous surface resistant to dirt, soap scum and hard water build up that dulls and etches untreated glass.

Unlike spray-on products, the protection of ShowerGuard® never breaks down and never needs to be reapplied. And unlike spray-on protection products, ShowerGuard® is backed by a robust lifetime limited warranty.

### How to register

Visit [www.guardianglass.com/registershowerguard](http://www.guardianglass.com/registershowerguard) to fill out the registration form.

### \$25 rebate

When you purchase a shower enclosure with ShowerGuard® glass from a registered ShowerGuard® Dealer you can receive a \$25 rebate. Ask your dealer for details.

### Care and cleaning

ShowerGuard® glass' patented technology helps keep minerals, scale and soap scum from sticking. A soft cloth or wet sponge and most common household cleaners are all you

WATER TYPE	SYMPTOM	EFFECTIVE CLEANERS	RECOMMENDED CLEANER	CLEANING FREQUENCY
Soft Water	Water spots come off with soap & water	Common cleaner	Windex	As needed
Hard Water	Water spots are removed with vinegar	Acidic cleaner	50/50 solution of vinegar & water	Every 15 showers
High silica	Water spots not removed with vinegar	Mild abrasive cleaner	Soft Scrub All Purpose Cleanser	Every 10 showers

\*Cleaning frequency recommendations are guidelines only. Actual cleaning frequency will depend upon humidity, degree of water hardness, shower temperature and other variables. In cases with extremely high silica content, it may be helpful to use the abrasive side of a Scotch-Brite Non-Scratch Sponge as needed.

The products in this publication are sold subject to Guardian's standard terms and conditions of sale and any applicable written warranties (available at [www.guardianglass.com](http://www.guardianglass.com) or from your local Guardian representative upon request). It is the responsibility of the purchaser to confirm that the products are suitable for their intended application in compliance with the applicable laws and regulations. Please contact your local Guardian representative to obtain any applicable handling and fabrication guides and for the most current product information.
