Glass Railings & Balustrades

Open up your world

Glass railings and balustrades are a popular choice for pools, deck balconies, and any open space, as they provide unobstructed views with a sleek, modern look. At Splendor, we offer a variety of glass railing systems that are durable, easy to maintain and meet all necessary safety requirements, making them an excellent choice for both residential and commercial applications.

- ✓ Maximum visibility without sacrificing durability
- ✓ Versatile and functional
- ✓ Durable and easy to maintain
- ✓ Quality hardware on every project

Glass Railing Partnerships

Design assistance, the Splendor way

Splendor is proud to partner with railing companies to provide custom glass solutions for projects of all sizes. Our team of glass experts work closely with project managers to determine the right glass products to meet the specific needs of each project. From tempered glass to laminated glass, we offer a variety of options to ensure safety, durability, and aesthetic appeal.

- ✓ Professional collaboration with architects, project managers, and designers
- ✓ Industry-leading certifications and partnerships
- ✓ Turnkey hardware and glass packages for fast and easy installation
- ✓ Custom packaging available

Glass Balconies

Upgrade your view

Our glass balconies and balustrades are designed to bring a modern and contemporary aesthetic to both commercial and residential projects. With sleek lines and a transparent appearance, they create an

open and spacious feel while ensuring safety and functionality. We offer customizable hardware and glass options to create the perfect design to your specific preferences and project requirements.

- ✔ Aesthetic appeal (compliments design)
- ✔ Provides unobstructed views
- ✔ Easy to keep clean

- ✔ Protects against weather
- ✔ Reduces energy consumption
- ✔ Versatile décor options

Glass Stairs

Make a design statement

Splendor specializes in manufacturing glass stairs that offer both functionality and style. Our glass stairs feature high-quality laminated glass and with non-slip treads

that provide safety while also enhancing the beauty of any space. We also offer glass customization options and hardware to ensure the perfect fit for any project.

- ✔ Seamless design integration
- ✔ Easy to keep clean
- ✔ Strong and durable

- ✔ Moisture/eco-friendly
- ✔ Allows light to shine through

Diamon-Fusion® Protective Coating

Superior glass protection

Splendor is proud to offer Diamon-Fusion® protective coating on our line of glass railings. The coating chemically bonds to the glass, forming an ultra-thin barrier that reduces cleaning time and protects against hard water stains. Using our automated equipment from DFI, Splendor is able to apply the Diamon-Fusion® coating on both sides of the glass with the highest quality.

- ✓ Keeps glass looking cleaner for longer
- ✓ Reduces cleaning time
- ✓ Protects against stains and corrosion
- ✓ Machine-applied to both sides of the glass

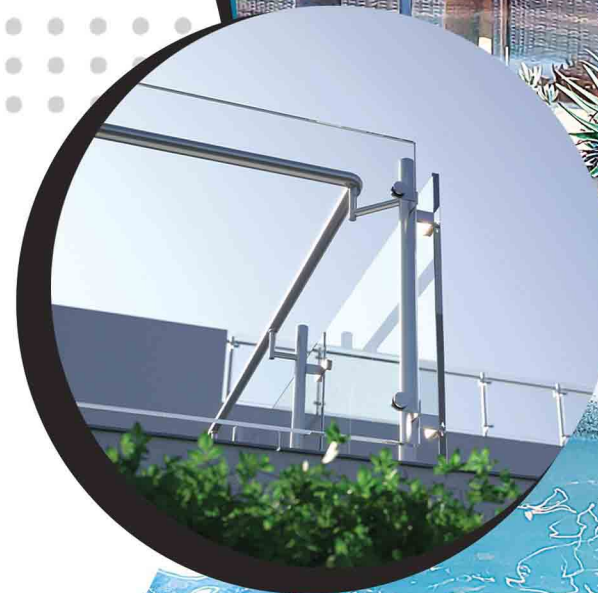

AB-AR Structural Laminated Glass/Sentry Glass SGP™ Comparable

- Resistance to impact in safety and security
- Technical solution that weighs 50% less than glass-only compositions with the same strength
- Improved behavior at temperatures above 50° C / 122° F
- UV filtering
- Laboratory certified
- Water/moisture resistant
- Post breakage structural interlayer allowing glass breakage while maintaining glass integrity for upright applications

Hardware Options

- Aluminum base shoes with aluminum and stainless steel cladding options
- Facia mounted stand-offs
- Stainless steel posts with clamps
- Aluminum or stainless-steel top-caps
- Aluminum or stainless-steel through glass handrails
- Variety of wood top-caps
- If using customized welded steel, Splendor will design glass to fit properly
- Available in satin anodized, matte black, brushed nickel & polished chrome
- LED light inserts available
