ELITE SERIES

Our Elite Series of frameless swing doors has the most customization options of all our enclosures. The hardware comes in dozens of styles and just as many colors. Hinges, Handles, Channel and Clamps are all available in dozens of colors, and just as many styles. The Elite Series has more than enough versatility to match the look and feel of any bathroom.

Heavy 3/8" and 1/2" glass gives the Elite Series weight and stability without the need for bulky frames. While clear glass is our most popular option, we offer a wide variety of textured, tinted and frosted glass to meet the level of privacy you want. Whether you're looking for a stock door/panel or a highly personalized neo angle, the Elite series has the flexibility to make your vision a reality.
